

**Readiness and Emergency Management for Schools Discretionary Grant Program  
(CFDA #84.184E)**

**Fiscal Year 2010**

**Abstract of Grant Recipients**

The purpose of the Readiness and Emergency Management for Schools (REMS) discretionary grant program is to provide funds for Local Educational Agencies (LEAs) to improve and strengthen their emergency management plans. The REMS discretionary grant program will enable school districts to develop improved plans that address all four phases of emergency management: Prevention-Mitigation, Preparedness, Response, and Recovery.

In reviewing and improving their plans, districts are required to work with community partners including, local law enforcement, public safety or emergency management, public health, and mental health agencies and local government. Plans must include training for school staff, a plan to sustain local partnerships after the period of Federal assistance, a plan for communicating emergency management policies and reunification procedures to parents, and a written plan for improving LEA capacity to sustain the emergency management process through ongoing training and continual review of policies and procedures. In addition, LEAs must agree to support the implementation of the National Incident Management System and commit to developing plans that take into consideration special needs populations within the LEA. Lastly, LEAs must agree to develop a written food defense plan and an infectious disease plan designed to prepare the LEA for possible infectious disease outbreak.

Typical activities included in grantee programs include reviewing and revising existing emergency management plans, conducting vulnerability assessments of schools and other district facilities, providing training, organizing tabletop exercises, procuring emergency supplies, and engaging in crisis simulation drills.
